Professional Summary

Motivated and detail-oriented Artificial Intelligence and Data Science undergraduate with strong knowledge in Java programming, frontend web development, and software engineering fundamentals. Skilled in developing responsive and user-friendly web applications using HTML, CSS, JavaScript, and Java. Passionate about problem-solving, object-oriented programming, and building scalable software solutions. Seeking an opportunity to apply technical expertise, analytical thinking, and continuous learning abilities in a growth-oriented organization.

Education

Sri Shanmugha College of Engineering and Technology <i>Bachelor of Technology – Artificial Intelligence and Data Science</i>	Expected May 2027 CGPA: 7.86
Government Girls Higher Secondary School <i>Higher Secondary Certificate (HSC)</i>	Apr 2023 71%

Technical Skills

Programming Languages: Java, C, JavaScript
Web Technologies: HTML5, CSS3, JavaScript, Responsive Web Design
Tools & Platforms: Git, GitHub, VS Code, Google Colab, NumPy, Pandas
Core Competencies: Object-Oriented Programming (OOP), Frontend Web Development, Problem Solving, Software Development Fundamentals, Basic Data Structures
Areas of Interest: Java Development, Artificial Intelligence, Data Science, Backend Web Development

Academic Projects

- Secure Login Authentication System — HTML, CSS, JavaScript**
 - Developed a secure login authentication interface with responsive UI components and JavaScript validation features for improved frontend security and user experience.
- Campus Canteen Management System — Java, HTML, CSS**
 - Designed and developed a digital canteen management application for efficient food order handling, order tracking, and real-time user interaction.
- Phishing Awareness Simulation — HTML, CSS, JavaScript**
 - Created an interactive phishing awareness simulation project to demonstrate cybersecurity concepts and identify suspicious links and phishing attempts.
- TinDog Responsive Website — HTML, CSS, Bootstrap**
 - Developed a responsive startup-style landing page using Bootstrap with mobile-friendly layouts and modern UI components.

Career Development Programs

Frontend Development Program <i>QSpiders Training Institute, Salem</i>	Aug 2025 – Sep 2025
Completed professional training in frontend web development technologies including HTML5, CSS3, and JavaScript while developing responsive and interactive web applications using modern UI principles.	
Java Development Program <i>QSpiders Training Institute, Salem</i>	Nov 2025 – Dec 2025
Acquired strong knowledge in Core Java and object-oriented programming concepts through real-time coding exercises and application development practices.	

Certifications

- NPTEL – Programming in Java
- NPTEL – Cloud Computing

Achievements

- Active participant in coding platforms including HackerRank and LeetCode.
- Continuously improving programming and problem-solving skills through coding challenges.
- Passionate learner with strong interest in software development and emerging technologies.
